What is Energy Enhancement System?

The Energy Enhancement System (EE System) generates multiple bio-active life enhancing energy fields, including "scalar waves" which can allow cell regeneration, improve immune function, provide relief from pain, detoxify the body, elevate mood, and assist in balancing right and left hemispheres of the brain, to increase energy levels.

Dr. Glen Rein, a quantum biologist, points out from his experiments with scalar waves that they positively influence the immune and nervous systems independent of the belief systems of the individual. Every cell in the human body, when functioning at its maximum health potential, ranges between 70–90 millivolts. Dis-ease and aging occur when the cellular energy depreciates to levels below this range.

Wellgizer sessions can significantly increase your energy, mental clarity, enhance health, and overall well-being by increasing the millivolt energy of your cells. We have personally seen cells transform from an energy of 22 millivolts up to 90 millivolts in less than 8 days when our homeopathy protocols are supercharged with scalar waves.

Wellgizer EE Systems is a God-send technology. I had an infected toe and looked at a possible procedure to clip the tendon so my toe wouldn't curl under causing it to be callous due to having my big toe amputated in 2015. Just after the first couple of sessions with the system, my toe is healed and I no longer need the procedure. I am also off my morning Xanax. I am sleeping better at night. My blood sugars have improved also, I have had 1 out of range blood glucose reading in 2 months. I think this technology is amazing. I highly recommend reaching out to Come To The Well (Wellgizer) and making an appointment. There are so many testimonials out there regarding all kinds of conditions and responses to energy enhancement. Just try it.
